

Daniel Briseno

(219)-798-5777
Brisenodan12@gmail.com

Aspiring software engineer and Computer Science undergrad at Purdue University Northwest. Keen to apply a proactive learning approach and collaborative skills in a tech-driven environment. Committed to innovation and eager to contribute to impactful software solutions.

EDUCATION

Merrillville High School- Merrillville, Indiana

August 2019 - June 2023

- Maintained 3.7 GPA
- Academic Honors Diploma
- Graduated top 13% of my class

Purdue University Northwest - Hammond, Indiana

Computer Science

August 2023 - Present

- 3.6 GPA
- Honors College
- CS club

EXPERIENCE

FrontEnd Developer- Merrillville, Indiana- Self-Employed

January 2024- Present

-I developed a fully responsive and interactive personal website using HTML, CSS, and JavaScript. This self-initiated project was a practical application of my web development skills and a demonstration of my technical capabilities.

PROJECTS

Personal Web Portfolio

[Basic Website](#)(active project)

January 2024-Present

-Developed a personal portfolio website to enhance my software development skills and interact with the tech community. This project showcases my proficiency in HTML, CSS, and JavaScript, highlighting my ability to create responsive, user-centric designs that foster engagement and professional growth in technology.

Simon Game

[Game](#)

July 2024 - July 2024

-Developed a Simon game using HTML, CSS, and JavaScript, showcasing my skills in creating interactive web applications. Utilized HTML for structure, CSS for styling, and JavaScript for game logic, including dynamic DOM manipulation and event handling. This project highlights my ability to deliver engaging and user-friendly applications.
